

GOLD MEDAL QUALITY PROGRAM

Versico Roofing Systems is committed to providing exceptional roofing installations performed by quality Versico Authorized Roofing Contractors, and we are proud of the reputation we have earned in the marketplace over the last 15-years. We are, however, only as good as the company we keep and we consider pride, professionalism and dedication to quality installations a hallmark of a Versico Contractor.

The Gold Medal Quality Program identifies the Versico Contractors who have set themselves apart by providing high quality installations on a consistent basis. We are proud to honor the most elite group of roofing professionals that contribute to our commitment in providing services that promote outstanding craftsmanship and long-term quality. Our Gold Medal Quality Contractors achieve outstanding inspection ratings on a job-by-job basis and are evidence of the high standards that we set for all of our contractors and system installations.

The minimum requirements for a Versico Gold Medal Quality Contractor include:

- Over 50,000 square feet* of installed and inspected warranted Versico projects annually
- Average inspection rating of 9.5 out of 10 or better
- At least 5 rated projects per year

** Square footage requirements may vary in certain areas.*

The recipients of Versico's Gold Medal Quality Award demonstrate to the public, their clients and their colleagues that they take pride in their profession and are dedicated to raising the bar for performance within our industry. Versico will continue to recognize, on an annual basis, those contractors who consistently provide excellence through service and installations by presenting them with the Versico Gold Medal Quality Award.
