

VERSIGARDä QA INSIDE/OUTSIDE CORNERS

GENERAL:

Versigard QA Inside/Outside Corners consist of .060" Uncured EPDM Flashing with a pre-applied adhesive providing .090 mils of total thickness. One corner can be installed as either an Inside or an Outside corner.

TYPICAL PROPERTIES AND CHARACTERISTICS:

Sizes:	7" x 9"
Packaging:	20/Carton
Weight:	5 Lbs./Carton
Color:	Black
Shelf Life:	6 Months when stored between 60° - 80°F

CAUTIONS AND WARNINGS:

1. A heat gun is required for forming outside corners in all temperatures as outlined in the current specifications.
2. Job site storage temperatures of 90°F may affect product shelf life.

INSTALLATION:

See appropriate installation guide.
