

Low-VOC Water Cut-Off Mastic January 20, 2023

To: Versico Roofing Systems' Authorized Contractors

Versico Roofing Systems is pleased to introduce its new Low-VOC Water Cut-Off Mastic. This new product is specially formulated to meet the South Coast AQMD Rule 1168 regulation that requires sealants to have a VOC content of 250 g/L, or less. This rule went into effect on January 1, 2023.

Versico will limit the sale of Low-VOC Water Cut-Off Mastic to **California only** and will restrict standard Water Cut-Off Mastic from being sold anywhere within the state. Standard Water Cut-Off Mastic will continue to be sold as the primary mastic sealant for our warranted single-ply roofing systems outside of California.
